## Installation instructions Head Light Guard R1200GS Steel Grille

### Parts included:

- 1 x steel headlight guard
- 2 x M6X40 button-head screw
- 2 x split lockwashers M6
- 2 x flat washers M6

### Installation:

Remove the two bolts that secure the front blinkers on the R1200GS.  
Position the Steel headlight guard to align with these two mounting holes.  
Place the split lock washer first on the M6X40 screw, then the flat washer, and insert into the headlight guard on each side. Tighten the screws. After 30 miles, check tightness.

### Attention!!!!

Check local laws to confirm that headlight protection is allowed for roadway use.
